

Monarc

One platform. Total security. Complete control.

[learn more](#)

Who We Are

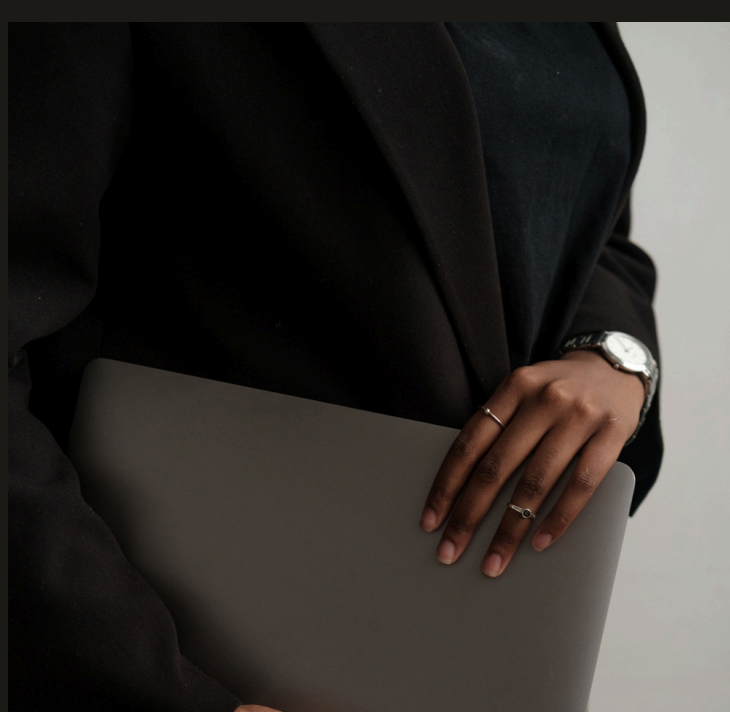

Monarc is a platform that helps companies stay secure. Instead of juggling multiple tools and dashboards, you get one place to see your risks, track your security, and fix problems before they become costly. Simple to use. Built for any company, any size.

Our Services

Monarc Shield

One dashboard to see every security risk in your business. No more guessing, no more blind spots – just clear visibility and instant alerts when something needs your attention.

Risk & Compliance

We help your business meet security standards like ISO 27001 and GDPR. Know where you stand, close the gaps, and stay compliant – without the headache.

Penetration Testing

We simulate real attacks on your systems to find vulnerabilities before hackers do. Coming 2027.

Why Choose Us

We are global.

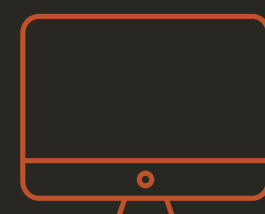

No matter where you are, we've got you covered.

We value our clients.

Virtual assistance. Talk to us about any concerns, 24/7.

We use top-rate systems.

Easy peasy UI. Our interface is simple and easy to use.

Most companies don't know they've been breached until it's too late. Monarc changes that.

Let's work together!
